

Dear Customers

Welcome to our spring newsletter

I trust you all had an enjoyable past few months, despite the awful weather!

With Easter fast approaching we hope that you manage to get some quality time with your family.

Just a quick reminder the bluebells will be with us in the next few days which are always popular with our customers. Please book in advance if you wish to capture the bluebells in the woods. This can make a beautiful backdrop for a family photo that can be treasured for a lifetime.

We have also brought back the popular log shed set that was featured in the Marks & Spender Christmas TV advert with Erin O'Connor and Jason Orange.

Andrew is looking for a past wedding couple who fancy dressing up in their finery again for a London shoot.

We hope you have an enjoyable and relaxing break.

Best Regards

Andrew

## Weddings

This year and last year we were privileged to shoot weddings in some fantastic locations. I'm still waiting to find a couple to be photographed at St. Paul's.

This Valentines Day we undertook the Wedding of Sam and Matt, this was held at the beautiful Buckinghamshire Denham Golf Club. One of the highlights of the day was when Matt commandeered a golf buggy for his bride, which made some original Wedding pictures.

Another fun wedding was that of Sean and Angela, they got married at Mall Park; the wedding was based on a Scottish highland theme. Most of the men wore kilts and there was a piper who led them into the Wedding breakfast.

If you got married this year and have yet to send us your selection for your wedding album, please forward them as soon as possible as our Easter rush is about to start.

**Schools and Nurseries** If you haven't already booked us then we still have some late availability this Easter. We are always glad to hear from you even if you haven't been photographed by us for a while.

**Baby Club** Still growing just like our subjects! It was nice to see some of our past Wedding couples come back with their first child this year. Please call us if haven't booked your 2<sup>nd</sup> or 3<sup>rd</sup> session yet as we are rapidly filling up for Easter.

We have just recently added a new designer frame range. Made out of solid & coloured acrylic, these can make a stunning feature in a modern contemporary kitchen or dining room.

**Families** A couple of months back Andrew was awarded best group shot for a picture he submitted to the London Portrait Group which comprises of some of the top studios in the UK.

Andrew is always looking for new ways to shoot you!! Especially if you're a returning family.

**Fund Raising** We would like to thank the customers, who supported our Red Nose Day
